HaGesher Report for AGM

Current HaGesher Editorial Team

Clare Crego-Molloy (Editor)

Richard Jacobi

Bob Kamall

Since the last AGM, the team has held several meetings and have produced five issues of HaGesher; one 'lite' issue and four full issues. There have been a few significant changes to the production of HaGesher in the last year:

- Council decided in October 2018 that the HaGesher 'lite' issues should be halted temporarily. This was due to concerns over the printing quality, as these issues were printed in black and white from the Shul printer, rather than by the professional printers that print the full issues.
- The last two full issues have been printed using a new online printing company (https://www.instantprint.co.uk), which has saved on printing costs without compromising the quality of the printed issues.
- Advertising rates were established by the Honorary Treasurers and have been included in the last two full issues.

In the coming months the team will meet to discuss content for the next issue of HaGesher, which is due to be posted in early September. We will also discuss the possibility of reinstating the HaGesher 'lite' issues in light of the saving costs made by switching to an online printing company and how to generate advertising opportunities.

As always, we welcome contributions, suggestions for articles and advertising from all members. Feedback regarding current content etc. is also gratefully appreciated.
